j. Amendments	<u>RESPONSES</u>
k. Other	① a replacement set of claims was submitted by Applicant,
	but only portions of the amendment was entered.
	Thus, an Examiner's amendment to the claims has been
	entered to replace ALL prior claim sets and clearly show
	the allowable subject matter over the prior art of record.
	② Review of the file indicates that in the first office
	action, the Exmr. requested replacement pages initials—
	RESPONSE of the specification because of holes in the text.
	In Applicant's response filed 12/3/00 (pg. 7), replacement
	pages were submitted. However, it appears that when the
	file was converted to an image (IFW), the replacement
	pages were inadvertently not scanned. Thus, an
	Exmr's amendment to replace the entire specification.
